

# ARCHIMEDE Klassik

---

Timeless elegance and harmonic styling are the hallmarks of the ARCHIMEDE Klassik.

The stately dials, available in several colors, have hand-applied Arabic numerals and 60 cabochons as second markers. The hands, specially designed for these watches, are slightly curved with rounded surfaces and underline the classic, simple beauty of this watch.

The multi-part case of the Klassik Chronograph is polished and satin finished and has a sapphire crystal on top with anti-reflective coating on both sides. The polished case of the Klassik 3 hands/date version has a non coated sapphire crystal. Through the display backs with mineral crystal the reliable movements Eta 7750 Elaboré resp. Eta 2824 Standard can be seen. The large (8mm) crowns are signed with the ARCHIMEDE logo and makes winding a pleasure. Strap options are black, blue or brown calf leather or a stainless steel bracelet with security clasp.

The Klassik models can be manufactured with the following options:

- Movements Eta 7750 TOP und Eta 2824 TOP, always with standard rotor (Special manufacture)
- ARCHIMEDE rotor (Special manufacture)
- Curved sapphire crystal with A/R coating on both sides (Special manufacture)
- Deployant clasp
- Bracelets: Black, brown and blue leather straps as well as a solid steel bracelet with deployant clasp are available.
