

ARCHIMEDE

Pilot Chronograph

The Archimede Pilot Chronograph is an addition to our popular line of the Archimede pilot's watches. Function, precision and classic design were the guidelines for the development of this instrumental timepiece.

This pilot's chronograph features the rugged, reliable and precise Swiss-made ETA 7750 automatic chronograph movement. The robust three-piece case with sapphire top crystal is made of finely brushed stainless steel. The screw down case back is available with a mineral crystal display or a solid back option for the same price. The oversized pilot's crown and prominent pushers ensure optimum usability. The large, clearly structured dial with bold luminous numerals, ample luminous hands, and a discreet date window at '6' provide perfect legibility and classic styling.
